

## **GED/ISAEP ADMISSIONS**

### **Returning GED/ISAEP Students**

1. Any student still in the program at the end of the school year who did not receive their GED, is automatically able to enroll at the start of the new school year through their home school. These students will need an intent form to complete their GED/ISAEP coursework.
2. If these students intend to take a trade, please have them fill out the Center's application and include the intent form with their application.
3. GED students taking a trade will come every day.
4. The students are responsible for providing their own meals; they can stay at the Center and either bring their lunch or buy from vending machines.

### **New GED/ISAEP Students**

1. Any interested students must complete the two page I.S.A.E.P. Registration Form found on the Center's website under the Enrolling students.
2. To be eligible to participate in the program, a student must successfully complete a placement test given by Mr. Walter Carpenter, GED instructor. One Monday per month is designated as testing day with a limit of twelve slots per time. Guidance Counselors need to contact Mr. Carpenter or Mr. Todd Davis to schedule a student for testing. Once a student is confirmed for a test date, an application must be either brought to the Center by the student or faxed by the guidance counselor.
3. To enter the program, a student must test in with a 7.5 reading level and score at least 440 on each of the five subject tests and a 200 word essay. Students who fail will be eligible to retest in nine weeks. Guidance counselors will be notified on testing day if the student passes or fails.
